This program is designed as a community-based water safety program for youths 10 - 15 years old. The Junior Lifeguard Training Program has been developed to serve many purposes where water safety is our primary goal. Along with water safety activities we engage in CPR Certification and First Aid training. A secondary benefit is the unique combination of establishing the foundation for good work skills, responsibility, certification, skill development, competition, and leadership skills. In providing a well-rounded training experience, we include 30 minute daily fitness, lectures, demonstrations, and team building activities. Participants who successfully complete the program may apply for lifeguard positions at The Hills. However, successful completion is not a guaranty of employment. An additional two hours per week of volunteering may be required by each JR guard. Course Pre-Requisite: 50 yards of freestyle or breaststroke. Retrieve a 10 LB. brick from a depth of 12 feet. Swim underwater 15 feet.
